George and Lee Brewerton were in Warner on Tuesday on business.

T. K. Roberts was in Magrath on Tuesday.

Taber is Stampeding on Sat, Sept. 20th.

Lowell Court was a passenger to Cardston on Saturday's afternoon train.

"Aunt Lucia" is being played in Magrath tonight.

W. Palmer was a Lethbridge visitor on Tuesday of this week.

The new 1930 catalogues of the A. C. are now off the press and are being distributed.

Pres. A. E. Palmer of the Lethbridge Stake was in Raymond on Sunday for the funeral of Mrs. C. H. Walton.

Mrs. Rhoda May returned home to Cardston Saturday after spending a few days with S. I. May and family.

Paul Redd was elected Wheat Pool delegate again from this district without opposition.

Marshall Milner is home from the Hospital and is looking well. He is still carrying his arm in a sling.

Mutual work will be getting under way before long now. Sept. 17th is the date the first session should be held.

Don't forget the Big Stampede next Tuesday and Wednesday. Haul out that ten gallon hat and get in on the fun.

The world's series in baseball will be on the first part of next month. No one knows yet what two teams will participate.

Prophets say the next financial depression will be in 1936 or '37. There will be a lot of people who won't be over this one by then.

Phil Baker has some wonderful heets this year and expects one ten acre patch to go about 25 tons per acre.

A non-union theatre was bombed by racketeers, the explosion bulging out an entire wall and shattering buildings for blocks in Hamilton.

The Annual Social sponsored by the Stake M.I.A. Officers, is being held in the Opera House, Saturday night, Sept. 13th.

The butcher shop next the Bakery opened again on Sept. 9th under the management of Mr. Wagner. Read the ad in this issue.

The wheat crop of Alberta for 1930 is estimated at 111,000,000 bushels figuring an average yield of 15.5 bushels per acre. Saskatchewan is 179,075,000.

The rain on Wednesday was a dandy and will do the heets a lot of good. Some grain was still waiting for the combine but was not damaged by the rain.

Geo. L. St. Ingam of Glenwood, M.L.A. for Cardston riding, has shipped 100 head of fat steers to the Old Country market. Mr. Stringam went as far as Winnipeg with the shipment.

Charles N. Oliphant, condemned slayer of the Milk River Chinaman and sentenced to be hanged on Wednesday, Sept. 10th, was granted a reprieve at the last minute and will serve life sentence at Prince Albert penitentiary.

The terrible hurricane which swept Santo Domingo Sept. 4 took a death toll of between 1500 and 2,000 with a list of injured placed at 10,000, property damage of \$20,000 and only 400 buildings left standing out of 19,000. Relief agencies were confronted with almost indescribable scenes of horror.

"Aunt Lucia" Takes Well

Funeral Services of Mrs. C. H. Walton

There was a large attendance and a profusion of beautiful flowers at the funeral services over the remains of Mrs. Ida Paxman Walton, beloved wife of C. H. Walton, held in the Stake House, Raymond at 2 p.m. on Sunday, Sept. 7th. The service was in charge of the First Ward Bishopric and Bishop H. F. Allen conducted. The choir was from both Raymond wards and W. C. Stone conducted.

The members of the 2 Elders Quorum of the Raymond 1st Ward met at the home and marched in front of the hearse to the Stake House, and members of the Quorum were pallbearers, W. W. McMullin, D. G. Selman, W. W. Depew, Jr., David Alfred Reed Wilde and David Bullock.

The Opening Song was "Providence is Over All."

Prayer by Emo Weed.

Second Song "Abide with Me."

Mrs. O. H. Snow sang "Come Unto Me."

J. H. Blackmore, who was the first speaker stated that he had always been impressed by the lives of the members of the Walton family and that he was well acquainted with them, whom he had taught in school for the past year. There was, he noted, a very marked tenderness between the deceased and her husband, and this should be kept and nourished between all couples. It was easily kept and he read from the Relief Society magazine from Wm. A. Hyde, President of the Poetello Stake regarding the death of his wife and the speaker commented on this. Spoke of Temple Marriage and said that life is made up of the doing of little things. Read the hymn "Should the changes of Life."

Wm. Clark sang "O Dry Those Tears."

Pres. A. E. Palmer of the Lethbridge Stake was the next speaker and spoke of his long acquaintance with the family of deceased in Utah and her noble lineage. He always felt humble in the presence of the righteous dead, and deceased was one of God's noble women. He loved to contemplate and vision the tying together of the broken threads of life and Temple marriage was the union that made the marriage relation and the family life, everlasting. Life is to get more into the lives of fellowmen, and death is a stepping stone to yet greater future. We can not help but mourn on these occasions and yet our gospel teaches that it is a promotion. The mother is still near her family and her keenest interest is there.

Bishop Allen in a few closing remarks expressed the sympathy of the community for the family of deceased and on behalf of the family thanked all for their assistance.

A double mixed quartette sang "Sleep Thy Last Sleep" and the benediction was pronounced by Pres. J. W. Evans.

A large cortege followed the remains to the cemetery where burial was made.

The heartfelt sympathy of the entire district is extended to the bereaved husband and children.

BI GRAPHICAL

Mrs. Ida Walton was born Nov. 20 1889 at Provo, Utah. Her heritage is that of those worthy pioneers who were always willing to sacrifice themselves for the Church.

On her mother's side her grand parents were of that aristocratic Southern blood being wealthy plantation owners but who sacrificed their all for the gospel, came to Utah and did a goodly share in the building up of the west.

President Moody was called by the Church to go to St. George where he spent many years as a leader of that community. Later he was called as a leader to colonize Thatcher, Arizona. Here he spent his remaining days.

On her father's side her grandfath-

er, William Paxman, a husband of Mrs. Kate Paxman of Raymond, was called to preside over the Juab Stake in which capacity he served for years. Besides this, he filled three missions abroad, one to England and two in New Zealand, being President of the Mission on the latter one. Our beloved "Aunt Kate" served with him on this mission.

The love and affection with which he was held in his work in the church was manifest upon his death. The news of this reached the mission headquarters about two weeks after interment. His mission friends then met together held services in his honor over a beautiful mound of ferns, made a wreath from them, then chose a delegate paid his way over seas to lay this expression of love upon that hallowed spot of earth which served as his final resting place.

Of the good deeds of her father and mother which could be mentioned of that first and great command to Love Your Neighbor, few in this world have come closer than they. Their humble home was always open to those in need. Never was the poor, unfortunate beggar turned from the door, and never was the call for charity left unanswered. They always remembered at Christmas and Thanksgiving every missionary of the ward with at least \$5.00 and those not home if in need. They were happy only when in the service of others.

Ida possessed these same qualities. She was loved by all who knew her. She was very retiring yet always faithful, over ready to do her part. Her work as social instructor in the Relief Society while in California shows three years with but one interruption. In this capacity she made hosts of friends both in ward and Stake.

In her work in the Primary and Relief Society in the Wellington ward

Big Stampede Tuesday and Wednesday

Next Tuesday and Wednesday will be Stampede Days in Raymond. Folks get all set for a big time. There will be horses and steers a plenty, and a thrill or a spill every minute.

Those who have the big time in charge are sparing no labor, and riders will be here in goodly numbers as well as our town twisters who have mounted the hurricane deck of some real wild ones in the past few years and have given good accounts of themselves all over Southern Alberta and Saskatchewan, and also in the Big Show at Calgary.

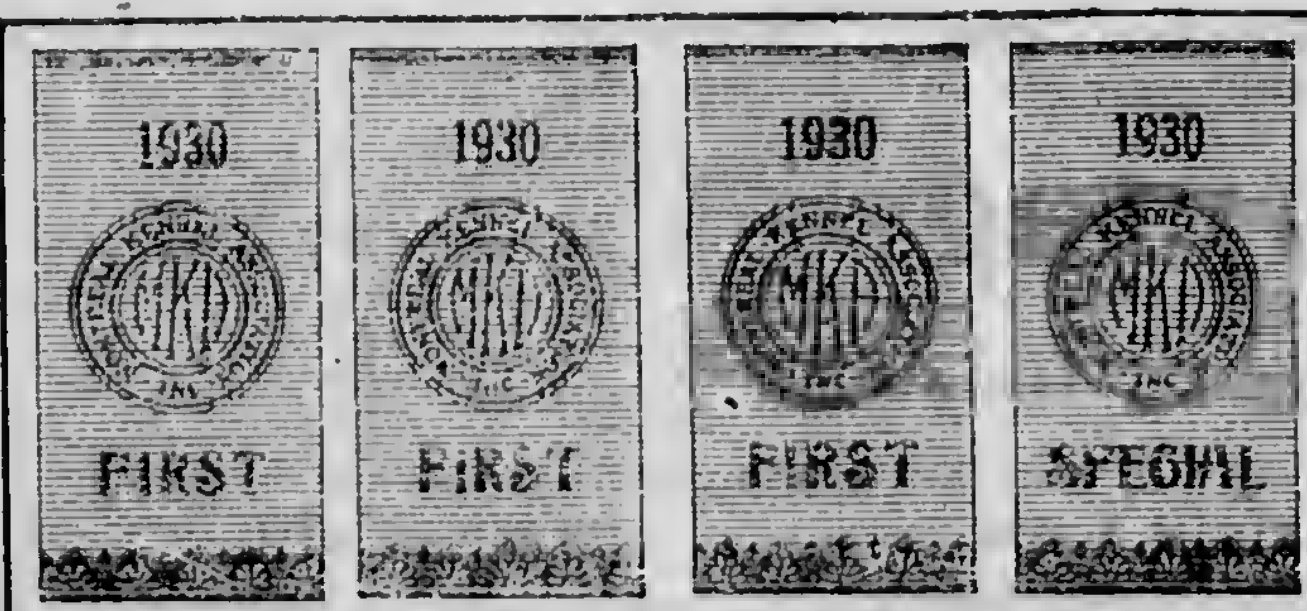

The grounds are in good shape and everything all set for a glorious time. Get your throat oiled for a lot of yelling as there will be races, calf and steer roping, horse and steer riding both bareback and saddle and everything for a real show.

"Let 'er Buck" and "Ride 'im Cow boy" etc.

She has made impressions for good which can never be erased from memory. She has born three children two of which are left to carry on this heritage. The oldest, Wand, having passed away March 1st 1918.

She leaves besides her husband and two daughters two sisters Mrs. Urida Busath from Salt Lake and Mrs. Stella Garrett from Provo, and a brother Monroe Paxman, of Provo who is at present in California for his health and was unable to be present at the funeral. The two sisters were here for the services and are still visiting with relatives.

Famous Husky Wins Prizes

Arthur Beauregard, well-known Indian guide at the Chateau Frontenac, Quebec City, owes much of his popularity among visitors to the hostelry to the team of huskies that march them out on snowed trips in the winter. Chief among his team is his leader, "Jeff," and at the last minute it occurred to Arthur to enter Jeff at the Montreal Kennel Association Show held recently. He took no particular trouble in beautifying him for the occasion and accordingly he had taken three first prizes and one special prize. In fact, he would have taken another special prize as the best dog shown, if Beauregard had not taken him away to catch a train. Illustration shows close-up of Jeff with some of his prize ribbons.

On Baby what a night. We were promised a laugh and we got it double measure, heaped up and running over.

From the first curtain there was not a dull moment, and even when Carrol and Dick were cleaning house they kept the crowd supplied with barrels of fun. The singing the yells the dances all were of a very high character and reflect great credit upon the ability and aggressiveness of the coach, Miss Robinson, who got up the production in two weeks time.

We couldn't mention all of the 100 people who took part, and all deserve praise for their splendid work, but we must mention a few.

Lou King as "Aunt Lucia" was a wow. To say it was an easy part would be a long way from the truth. To talk in a high-pitched falsetto for nearly two hours is no child's play and to keep the wig in place, the lace collar and the skirt just where it belonged was a herculean task, but Lou, who was also Jerry Watson rose to every occasion.

Ted Hodson, John Allen, Orpha Vance, Mrs. John Allen, Thelma Smith, C. B. Strong, Mrs. Maria Brown, T. T. Mendenhall and Deal Mendenhall, the Big Butter and Egg man furnished plenty of laughs and left nothing to be desired in the interpretation of their parts.

The Flapper Chorus, headed by Bill Rouse a "perfect 50," Dr. Leech as the "Vamp of Raymond, Jack Mehew as "Jiggs Maggie, Sam Dyson as Tillie the Toiler, and F. Dewsherry as the Gold Digger and L. L. Palmer as the "Girl with the Golden Car," all somehow all of the arms and legs tucked into female apparel. Did they laugh? Well who could have done anything else.

We could go on indefinitely about Butter and Eggs and his home at Wellag, C. B. Strong as Prof. Gaddis and his eye on "Aunt Lucia" and her fortune and Marian Brown as Dean Howard and her eye on Prof. Gaddis, but we must desist.

Everyone who didn't see it should have seen it as they missed miles and miles of laughs. Much credit is due Miss Robinson for her unceasing and masterful coaching and should she ever return to Raymond there will be a warm and hearty welcome awaiting her.

WEDDING BELLS

NIELSON--HOLT

Miss Della Nielson and Mr. Grant Holt are pleased their many friends on Monday last by stealing quietly away to Lethbridge where they were married. Both these young people are well and favorably known in Raymond and have the best wishes of a host of friends in their matrimonial journey. They will make their home here where Grant is interested with his father in the mercantile business.

News Notes

Subscribe to the Recorder

Magistrate J. W. Low was here on Tuesday on official business.

Mr. Longman was in Lethbridge on Tuesday supervising the threshing of some of the test plots of fertilized grain.

New names are being coined daily for miniature golf courses. "Dinky" and "Runt" Golf courses are among the latest we have noticed.

The old Rex Barber Shop building is being repaired and renovated, and when completed Alma Betts is going to move his Shoe and Harness Repair business into it. Increase in his trade has made the move necessary.

Mr. and Mrs. Spencer Young are spending a few days in Raymond. Spencer is a son of B. S. Young, and an old-timer here and is renewing acquaintances. His father is a former Mayor of Raymond, and was at one time editor of the local paper.

School Fair Successful

With a total of 910 entries, not counting any specials, and with rain falling steadily all day, Raymond's 1930 School Fair, was in the estimation of the judges, 25 per cent better than last year's Fair, and the one last year made a record over any previous year.

The exhibits were all of a high quality and showed work in their production, and the competition, especially in the Vegetables was very keen. The cooking, school work, Sewing, etc. showed a large variety and competition in practically every class. There were not many specials and the large entry list, is therefore, all the more encouraging.

The exhibits in livestock and poultry were limited because of the storm but there were some high grade animals in the pens notwithstanding.

The School Fair Garden Contest was keenly contested, and if some had not been too weedy the competition would have been very marked. The winner were Stanly Lintski, first prize \$15.00, Eva Cope 2nd prize \$7.50. The third and fourth money was divided equally between Jimmy Perks and Garth Peterson, each receiving \$3.75.

The judges were Mr. Gilbert gardens and vegetables; Mr. Little, Livestock Miss Lent, Cooking and Sewing; all three of the A. C. and Inspector Morgan who judged the school work.

FAREWELL FOR "LOU" KING

The farewell social for Lou King, who is leaving on Monday for a two year's mission in the North Central States will be held in the new Social Hall of the Second Ward Chapel on Saturday night, September 13. A short program will be given and the remainder of the evening spent dancing to the music of King's Canadians Orchestra of which Lou is manager.

LABOR DAY GOLF TOURNAMENT AT WATERTON LAKES

Don't Miss Buddy Rogers tonight in Young Eagles--Greater than Wings

With Byrd at the South Pole showing at the Capitol Theatre next Monday and Tuesday should be seen by every man woman and child in Raymond. A special matinee will be given on Tuesday at 4:15.

In the Ladies two ball foursome Mrs. A. H. Zuhlski of Raymond and Mr. Jas. Pike of Lethbridge won first prize. Mrs. S. B. Card of Raymond and Mrs. Cleodene of Lethbridge won second prize. Suitable prizes were awarded.

Mr. and Mrs. C. C. Watson and family have returned from a three weeks vacation spent at Calgary, Edmonton and Waterton Lakes.

HANDS OFF

The proper care of the hands and the control of the hands are habits that lead to the prevention of disease. These two points must go together because it is not entirely a question of clean hands, but also their proper use. Hands off, while a colloquialism is nevertheless an injunction to be obeyed.

As we go about our daily work or play our hands are almost sure to be soiled. Most of us wash our hands if there is dirt on them, but many persons do not wash the hands if they appear to be clean.

The hands may look perfectly clean and yet they should be washed before preparing food or eating because there is more than a fair chance that some bacteria or germs have been picked up by these hands.

We know that very fortunately for us, disease germs die when they are exposed to draught or sunlight. The hands, however, are usually warm and moist, both of which conditions favor the existence of bacteria. If therefore, bacteria are picked up on the hands, they will live for some time. It is evident then that in order to get rid of any disease germs, the hands even though they show no signs of dirt, should be washed often.

CUT THE OVERHEAD

"When farmers," says a successful one who didn't get that way by having an uncle die and leave him a thousand grand, "start to think as business men do about cutting down overhead and operating expenses instead of ranting because they can't get two dollars a bushel for their wheat year in and year out they will be able just as other businesses do, to weather hard times and low markets." How many self-destructed farmers down at the heel, down in the mouth and in the dumps generally, have you heard wall at any cause but the true one, for their lack of success? True there are cases where hard luck in the form of a string of bad crops or hail hitting them at the outset of their careers, have broken many farmers. There are thousands in this country and across the line too, though, that have no such excuse to make. They made money right off the bat, but had to spend it all for luxuries beyond their purse the first year or two they went on the land. When a man tells you a hard luck story of failure after failure on farms in different sections of country and you go out in his farmyard and see the waste of valuable machinery through his being too lazy to protect it from the elements during the off season months, and again see him sit around while the weeds cut down his profit, when some effort to cultivate at the proper time would help him keep this menace (and what an expensive menace it is) down to the minimum.—Wainwright Star.

TOWN PLANNING IN ALBERTA

By Horace L. Seymour, Provincial Director of Town Planning

The Alberta Town Planning Act has been in operation for over a year, and inquiries are received as to the principles of Town Planning, but particularly as to the operations of the Act or Regulations thereunder.

It is also evident that many are not aware of some of the provisions of the Town Planning Act, or if aware, do not appreciate their value or significance.

Something has been accomplished through public meetings and correspondence but there seems to be a field in the further dissemination of town planning knowledge that can best be covered by the newspaper and these short articles to appear from time to time are prepared for that purpose.

The meaning of Town Planning most briefly defined as "community foresight" can best be described as the orderly treatment or arrangement of land and buildings both in town and country so that economy, convenience, health, and well being may be secured,—out of which may also arise community attractiveness, and individual happiness. The carrying out of such a program of development may take some years but brings a rich reward to the individual and to the community.

What Town Planning is meaning to Alberta is probably best explained by brief descriptions of some of the provisions of The Town Planning Act and Regulations and this is the object of succeeding short articles.

News Notes

A little rain fell Saturday, and Sunday was cloudy and cold, but was dry all day.

School fairs are in progress now, two teams being out to look after the two sections of the district.

The M.I.A. Conjoint programs on Sunday evening in the two Raymond wards were well attended and splendid programs were rendered.

Fast meetings are now held the first Sunday of each month immediately after Sunday School, and they promise to prove very successful.

J. E. Earl was here part of last week disposing of his furniture, prior to his departure with his family for Utah where they purchased a small livestock farm and "Joe" has a good position.

CARD OF THANKS

Words are a poor medium in expressing the true feelings of the heart. It is our only medium however at this time, so the family take this method and join me in thanking those who have shown such keen interest during the illness and the final services of our dear one.

Every flower, every expression of sympathy and every act of kindness has helped to relieve the heartache. Accept our thanks at this time one and all for it is truly appreciated.

Her sisters also wish to join me in this expression

Here and There

(519)

With a prepared acreage greater by 31 per cent. than that of 1929, a better moisture situation and other indications presaging general good conditions for the year, the Canadian West is now busy seeding, according to the latest report of the agricultural department of the Canadian Pacific Railway.

Nearly \$28,000,000 was voted by the Ontario Legislature recently for hydro-electric development work to be undertaken this year in the province for the Ontario Hydro-Electric Commission, a provincial government organization. Over \$18,000,000 is to be spent on the extension of the Niagara hydro system, upon which many millions have already been spent to provide cheap electric power over a wide area of rural and urban territory.

"There is a very large amount of capital in England ready for investment and it is felt in that country that it should go to Canada," said Major L. A. Jones, economic editor of the London Morning Post, who landed recently at Saint John from S.S. Duchess of Atholl, on a trip to Canada for the purpose of fostering better economic relations between the Dominion and the Motherland.

Four new game refuges adding 500 square miles to the existent 640 square miles of game sanctuaries in New Brunswick are to be established in that province for the purpose of preservation of the game supply, according to information given out by Hon. Charles D. Richards, Minister of Lands and Mines.

Fish caught by commercial fishermen in Canadian waters last year had a value of about \$55,000,000. Over 100 countries bought fish and fish products from the Dominion in 1929, valued at \$38,000,000. More than 80,000 persons find employment in Canada in the fishing industry.

The wild rose is now the floral emblem of the province of Alberta. The provincial parliament has enacted the legislation making this flower which grows so profusely all over Alberta, the provincial symbol. Choice of the emblem was put up to the school children of Alberta and the wild rose captured most votes, with the tiger lily next in favor.

Homestead entries taken out through the Dominion Land Office at Edmonton during the month of March last broke all records for that month with a total of 277 homesteads and 19 soldier grants which compares with 230 homesteads in March, 1928, the previous record March.

Contrary to the general impression, Canadian investments in the United States are greater, per capita, than American investments in the Dominion. An official statement just issued shows that the average Canadian has \$100 invested in the United States and the average American about \$29 invested in Canada.

Something more than appearance will be necessary for grain to win a prize at the World's Grain Exhibition and Conference to be held at Regina, July 25 to August 6, 1932. All entries getting into the prize money at this exhibition will be expected, be in demand for seed. It is because of the importance of the effect of the distribution of this prize seed to farmers in Canada and throughout the world that the Awards Committee has decided that the usual judging standards will be supplemented by a growing test, which in reality is the best supreme.

CANADIAN PUBLIC SUPPORTS AVIATION

Ottawa, Sept. 9, (Special to the Recorder)—A tribute of public support in the development of aeronautics is contained in the 1929 report of the civil aviation branch of the Dominion Department of National Defence, and in a large measure the report states the extreme development of the activity is due to this support. Cities and towns all over the Dominion, are contributing materially by the construction of airports and air dromes.

The report reviews the progress of aviation since the war up to 1929, and points with some pride to the fact that in three years' operation of the mail service not a single life has been lost. During the year it is shown that the activity of aviation is greater than in any previous year since the war. Forest protection and aerial survey work has gone ahead materially and in greater degree than ever before. Flying in the north has been extended, air mail service now spans more than half the Dominion, with trunk lines in the East and daily services in the Prairie Provinces and the future of aviation is extremely bright.

The report contains considerable information relating to flying activities in Canada, including a review of the work of the larger commercial companies and the work done by the department in the civil aviation branch itself.

MOTHERS AND DAUGHTERS OUTING

The Fathers and Sons have nothing over the Mothers and Daughters. The latest outing of the Mothers and Daughters of the 1st ward was held at the Agricultural grounds last Thursday, August 28th. 250 women and 85 children were entertained and from the beginning to the end there was just one sport after another. Everyone entered into the fun of the festivity and soon forgot their cares and duties with the gaiety of the events. Community singing under the direction of Mrs. Valeria Allen preceded a selected program of the following:

Reading—Mrs. Julia Asplund
Reading—Mrs. Emma Peterson.
Reading—Virginia Zabriskie.
Reading—Alice Card.

And the eats! Oh Boy! Hot dogs, corn on the cob and cake gave the outing just the right finish, and every one went home happy, anticipating another outing next year.

Those on the committee were, Mrs. Zattella Taylor, Mrs. Kate Card, Mrs. Barbara Zabriskie. Games and entertainment were in charge of Inez Lamb and Mrs. Amy J. Allen.

Soek: "A sharp nose indicates curiosity," says a physiognomist. Yes, and the flat one may indicate too much curiosity.—The Humorist.

FASCINATING LINKS

In striking contrast to the travelling facilities of today with our fast expresses and modern bus line, is the stage coach of only a hundred years ago, when it took a whole day to make a journey which we now make in a couple of hours. With the advent of air travelling these journeys are being shortened day by day so that in time our now up-to-date time tables may be items of great historic interest.

In the Dominion Archives at Ottawa, a greatly valued poster with the heading, "Mail Stages Leaving Sweetburg" in large letters. Sweetburg is today a thriving little town in the Eastern Townships, about sixty miles from Montreal on the Boston highway, and only one mile from Cowansville, a busy industrial town. According to the poster Mr. A. Pickle, was the proprietor and Mr. George Beals was the owner of the St. Albans line. The descendants of these enterprising gentlemen are still living in the district. The poster was printed by the Democratic Print of St. Albans Vermont, on May 15th, 1860 and announces that stages leave Sweetburg daily, except Sunday, for West Farnham, Knowlton, St. Albans and Richford, and on Tuesdays, Thursdays and Saturdays for Waterloo and on Mondays, Wednesdays and Fridays for Granby.

The coaches all left between the hours of two and six in the morning and returned the same evenings, often probably only in time to start out on the next day's trip. The condition of the roads in those days will leave a good deal to the imagination while the roads thru that same district today are splendid and fast travelling is quite possible in spite of the fact that they are all very winding and have many ups and downs.

(606)

"We are quite satisfied with the showing of the British teams at the Empire Games just concluded at Hamilton, Ont., for we picked up quite a lot of honors, and if I may say so, made a very creditable showing," was the statement of R. T. Britten, in charge of the swimmers who hung up several new marks at the meeting. He thought the Games would be of incalculable value to the Empire as a whole, since they brought all parts of it together at one time and one place.

The maiden voyage of the new Canadian Pacific flagship of the Pacific, the Empress of Japan, from Yokohama to Victoria, was completed in eight days, six hours and 23 minutes, beating the Empress of Canada record for the run, established in 1918, by four hours and thirty minutes. E. W. Beatty, chairman and president of the railway company, wired congratulations to Captain E. Aikman, general superintendent of the Company's Pacific steamship fleet. Records also fell on the Atlantic when the company's liner Duchess of York travelled between Greenock, Scotland, and Quebec City in 5 days, 17 hours and 20 minutes, even bettering the time hung up by the Duchess of Richmond on her previous trip from Belfast to Quebec, which is a hundred miles shorter.

Speaking at a banquet given by the Saint John Board of Trade to inaugurate the service of the new Canadian Pacific steamer Princess Helene, on the Saint John-Digby route, E. W. Beatty, chairman and president of the railway, said he thought Canada would respond more quickly than other countries, even wealthier than herself, to measures taken by responsible governments and large industrial organizations to alleviate unemployment. He added that in his opinion the Maritime Provinces were particularly favorably placed in this respect.

Dressed in white and blue kirtles and the traditional Normandy caps, fifty Louisiana girls, descendants of the Acadians expelled from Nova Scotia 175 years ago, assisted in the celebrations at Grand Pre recently, at which many Acadians living in the United States and Canada attended. The United States, France, Great Britain and Canada were represented at the celebrations which were held on the site of the old village and around the Memorial Church made over famous by Longfellow's poem of Evangeline.

In the provision of telephone communications in cities of 60,000 and over and in conversations per capita, Canada leads the world, according to statistics recently published. In these cities Canada has 24.2 telephones per 100 inhabitants against the United States' 21.8. In 1929 Canadians made 241.1 conversations per head of population as compared with 230.7 in the United States, her nearest rival.

CANADIAN PACIFIC RAILWAY CROP REPORT

With the exception of some late crops, cutting of grain in the middle west is practically completed, the recent change to cool weather affecting harvesting operations little. Light to heavy showers in western Manitoba and Alberta and some snowfall in Alberta delayed threshing early in the week just closed, but activities were quickly resumed, according to the weekly report of the Canadian Pacific Railway's agricultural department.

Wheat cutting is practically 100 p.c. completed and threshing is general, except along lines radiating from Wilkie in north-western Saskatchewan. Wheat is approximately 45 p.c. threshed; oats 30 p.c. and barley 35 p.c., the figures rising in central and southern areas where threshing is finished.

From many points in the west crop yields are reported better than was expected early in the summer. In northern districts favorable conditions have brought yields of 35 to 40 bushels. Increasing use of combines and headers is noticeable, one point in Southern Alberta reporting a sale of 75 combines.

Little likelihood of material shortage in winter food is due to the good stand of coarse grains, generally better than last year, aside from a few sections struck by extreme drought. Several points in the west, says the report, will market considerable grain to supply extra cattle and hogs at a number of points.

No frost is reported in British Columbia where the apple crop continues promising, though early moisture would help the size and color of the fruit. Pentleton district predicts the finest crop of McIntosh Reds ever harvested. The movement of Wealthy apples and stone fruits is now at its peak, with brisk demand. McIntosh Reds will begin to move the third week in September.

STUNT PILOT HAS BAD FALL—OUT OF BED

CHICAGO—All Wilson, veteran stunt pilot, who owed the national air race crowds with sensational flights, on an antiquated biplane, today was suffering from two broken ribs.

He fell out of bed.

\$20,960,000 VALUE OF RADIO PRODUCTS

Ottawa, Sept. 9. (Special to the Recorder).—Production of complete radio sets, parts and batteries in Canada during 1929 reached a value of \$20,966,137, or 65 per cent above the total of \$12,768,024 reported for 1928, according to a preliminary statement issued by the Dominion Bureau of Statistics at Ottawa.

The data for this report were assembled from the annual returns to the industrial census. In 1929 an output of radio sets or parts was reported by 47 different firms, of which 40 were in the electrical supplies industry and 1 in the furniture industry. This survey however, does not include the great number of small custom workers who assemble or build to order; only those classed as manufacturers have been included.

Complete receiving sets manufactured numbered 143,968 valued at \$14,986,173, as compared with a corresponding total of 81,032 sets worth \$7,486,127 in 1928. Tubes numbering 2,304,270 worth \$3,100,148 were turned out and batteries storage and dry cells sold to be manufactured for radio purposes, amounting to \$1,791,639 were produced in 1929 as against \$2,456,148 in 1928.

Here and There

592
Asbestos production in Canada during 1929 set up a new high record, according to the finally revised figures of the Bureau of Statistics. Shipments in 1929 amounted to 306,055 tons, valued at \$13,172,561, an increase of 12.1% in quantity and 17.2% in value as compared with the previous year. The average value received by the operators was \$43.04 per ton, compared with \$41.16 the previous year.

Nipigon trout, known all over the continent as the gamest of game fish, are coming into the spotlight again according to reports from the famous Ontario resort where the annual contest for the largest speckled trout is now in full swing and will continue until September 14. The best entry to date is a 5½ lb. fish, measuring 22 inches in length and 14 in girth taken with a single spinner with fly, on a 9½-foot rod, by Edmund Stalter, of Patterson, N. J., July 29.

East and West, Orient and Occident, will meet in the British Empire Piping competition, one of the most important of the new features to be introduced at this year's Highland Gathering and Scottish Music Festival to be held at Banff at the end of August. Pipe-Majors of the John Clark and E. L. Collins of the Royal Scots Regiment of Scotland, of which Princess Mary is Colonel-in-chief, will come from the British Isles, while Pipe-Major W. C. MacKie of the Scottish Company of volunteers is on his way to Banff from Hong-Kong.

Prospects for increased earnings during the fall months are good and directors of the Canadian Pacific Railway have no intention of reducing the dividend, said E. W. Beatty, chairman and president of the company, recently in reply to rumors that the dividend might be cut.

Nowadays the world moves on rubber and this does not apply to automobiles alone. According to a recent return of the Canadian Government the people of Nigeria in June bought 300 pairs of shoes with rubber soles from Canada. Barbados took 3,020 pairs and Trinidad 6,555 pairs. The value of the Canadian automobile tires exceeded \$1,000,000 in value.

Canadian farmers are now producing all the fine tobacco required by Canadian manufacturers, according to a statement just issued by the Dominion Department of Agriculture which also claims that the tobacco is of better quality than that usually imported. Canadian tobacco has also become a factor in the British tobacco market.

An increase of 58% in motor tourist traffic from the United States to New Brunswick is shown in statistics for the 1930 season up to July 31 as compared with the same period last year, according to figures issued by the provincial government Bureau of Information and Tourist Travel from returns from Canadian Customs collectors at the 21 ports of entry along the International Boundary.

It is not generally known that the Prairie Provinces—Manitoba, Saskatchewan and Alberta—contain important commercial fisheries. In 1929 the commercial value of fish caught in these provinces exceeded \$4,000,000.

Herman Trelle, of Wembley, Alberta, former wheat and oats king, won first prizes at the Regina Exhibition for his Marquis and Reward wheats. William Darnborough, of Laura, Sask., was second in the Marquis class, and E. Thomson, of Pathow, Sask., came just behind Trelle in the Reward class.
